Featured on National Geographic Today and recognized with national speaking awards, Chris also shares a team of 26 Alaskan Huskies with her mushing partner. With stories from 30+ years of wilderness leadership experience and 20+ years of speaking all across North America, the abundant parallels between these adventures and the world of work make up the core of her presentations. Chris brings Wild to the workplace to help free us from the trappings of 'how we've always done it, and to support organizations, leaders, and teams in pulling to their potential.
